What are you creating?

Transitions

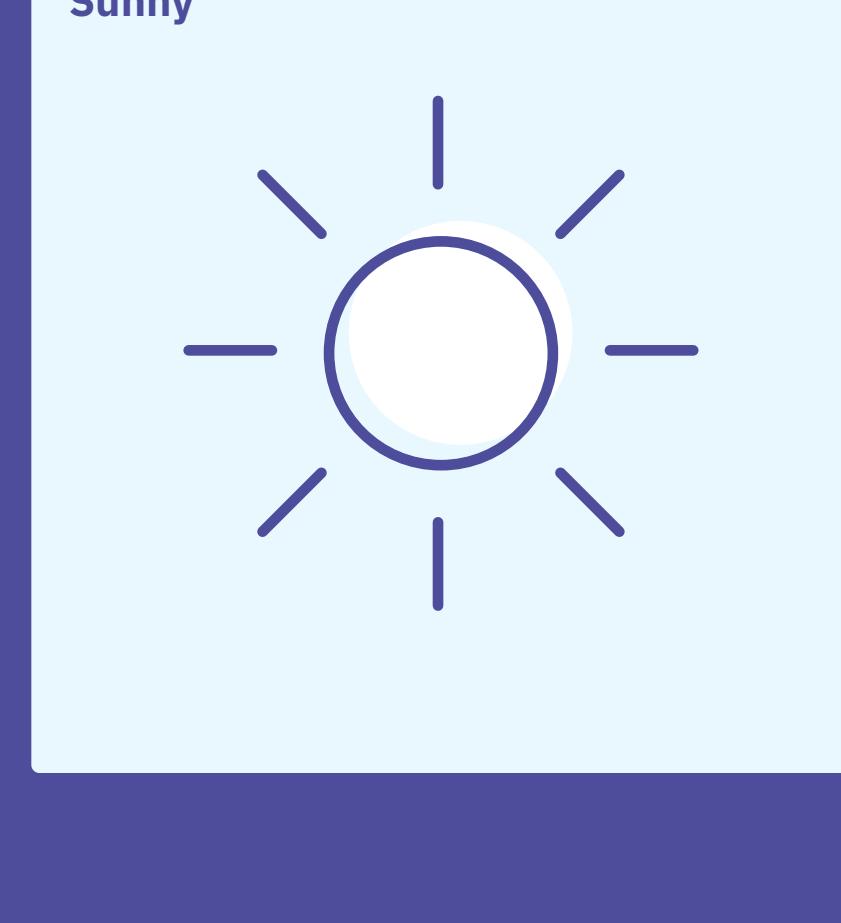

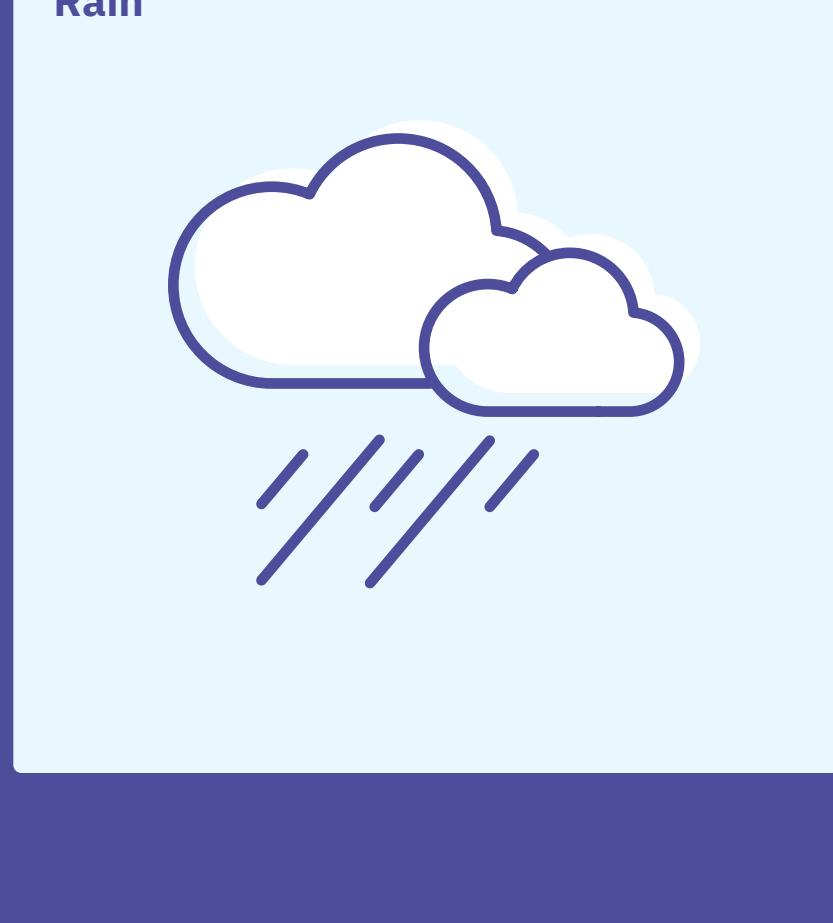

Intro or outro song

Background music

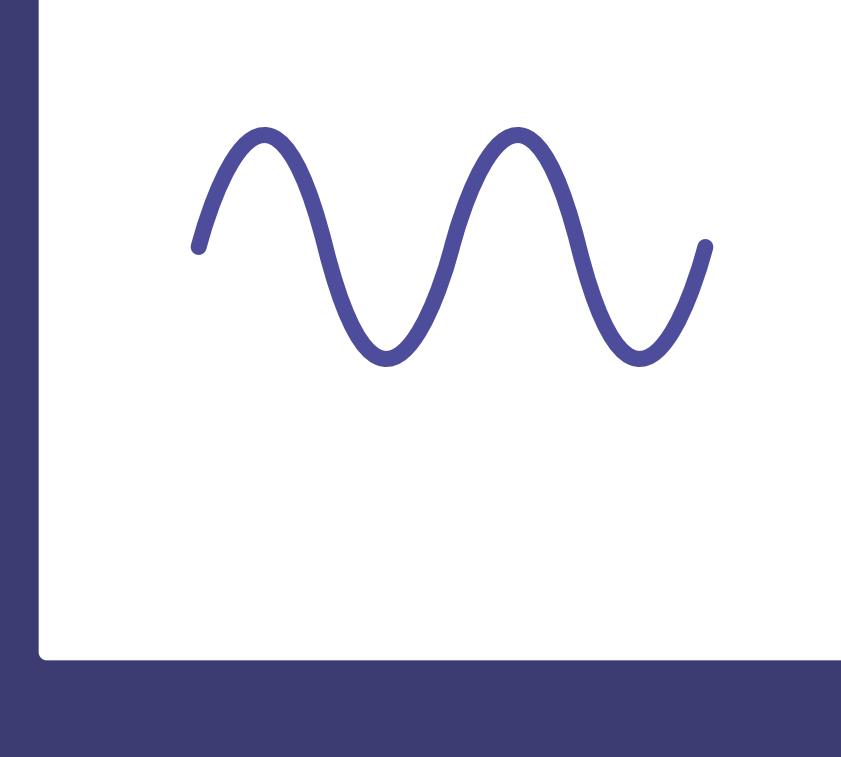

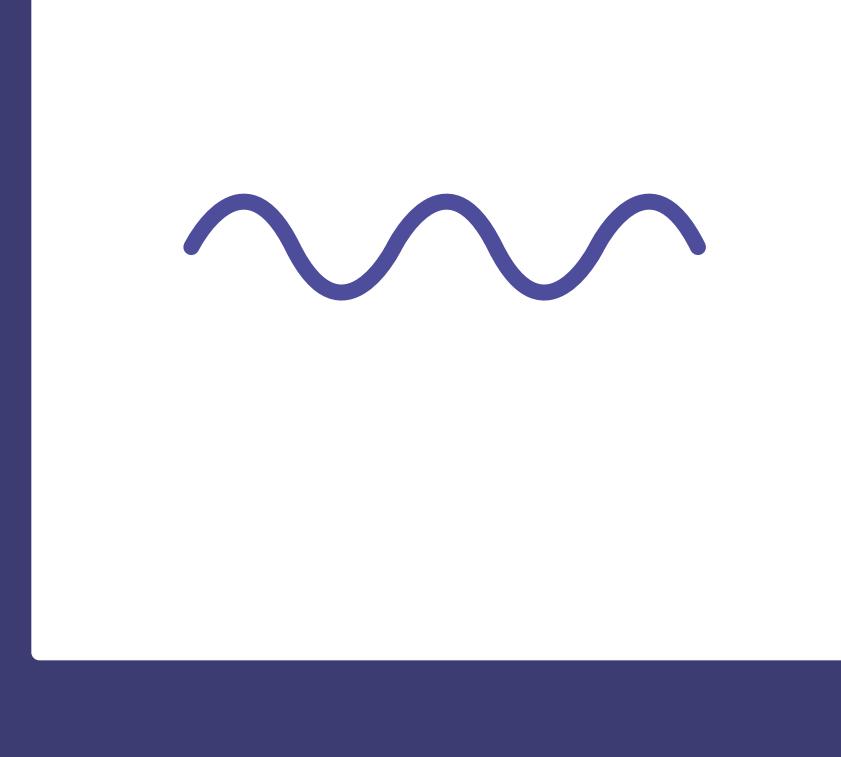

If your project could walk, how would it move?

If your project was a weather forecast, which would it be?

If your project was a rollercoaster, what would it look like?

Create track

Upload a music
sample to
act as **inspiration**
for Watson.

[Upload MIDI file](#)[Play 10 sec sample](#)[Or let Watson choose](#)

Customize your music.

Type in the desired length of your track, choose a mood, and adjust the energy levels.

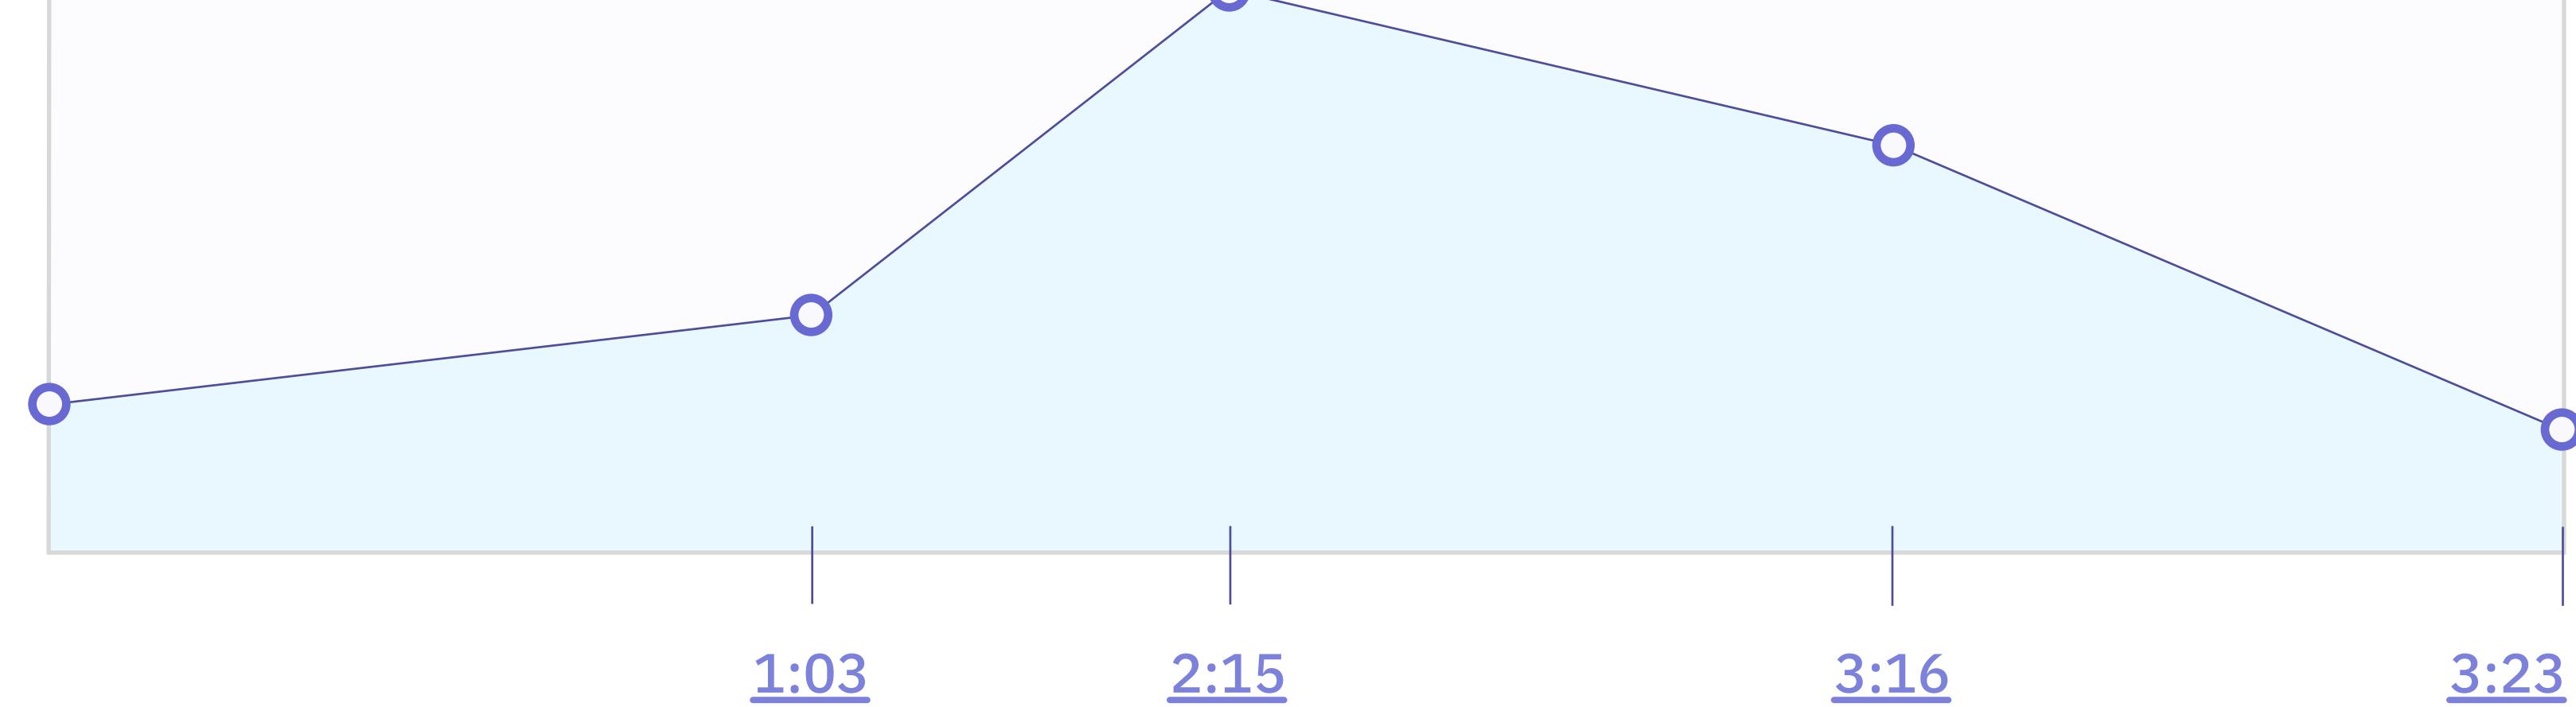

[Start the tour](#)

[Or skip](#)

Choose a mood: [Pop funk](#) [Chill](#) [Reggae pop](#)

High Energy

Low Energy

[Create track](#)

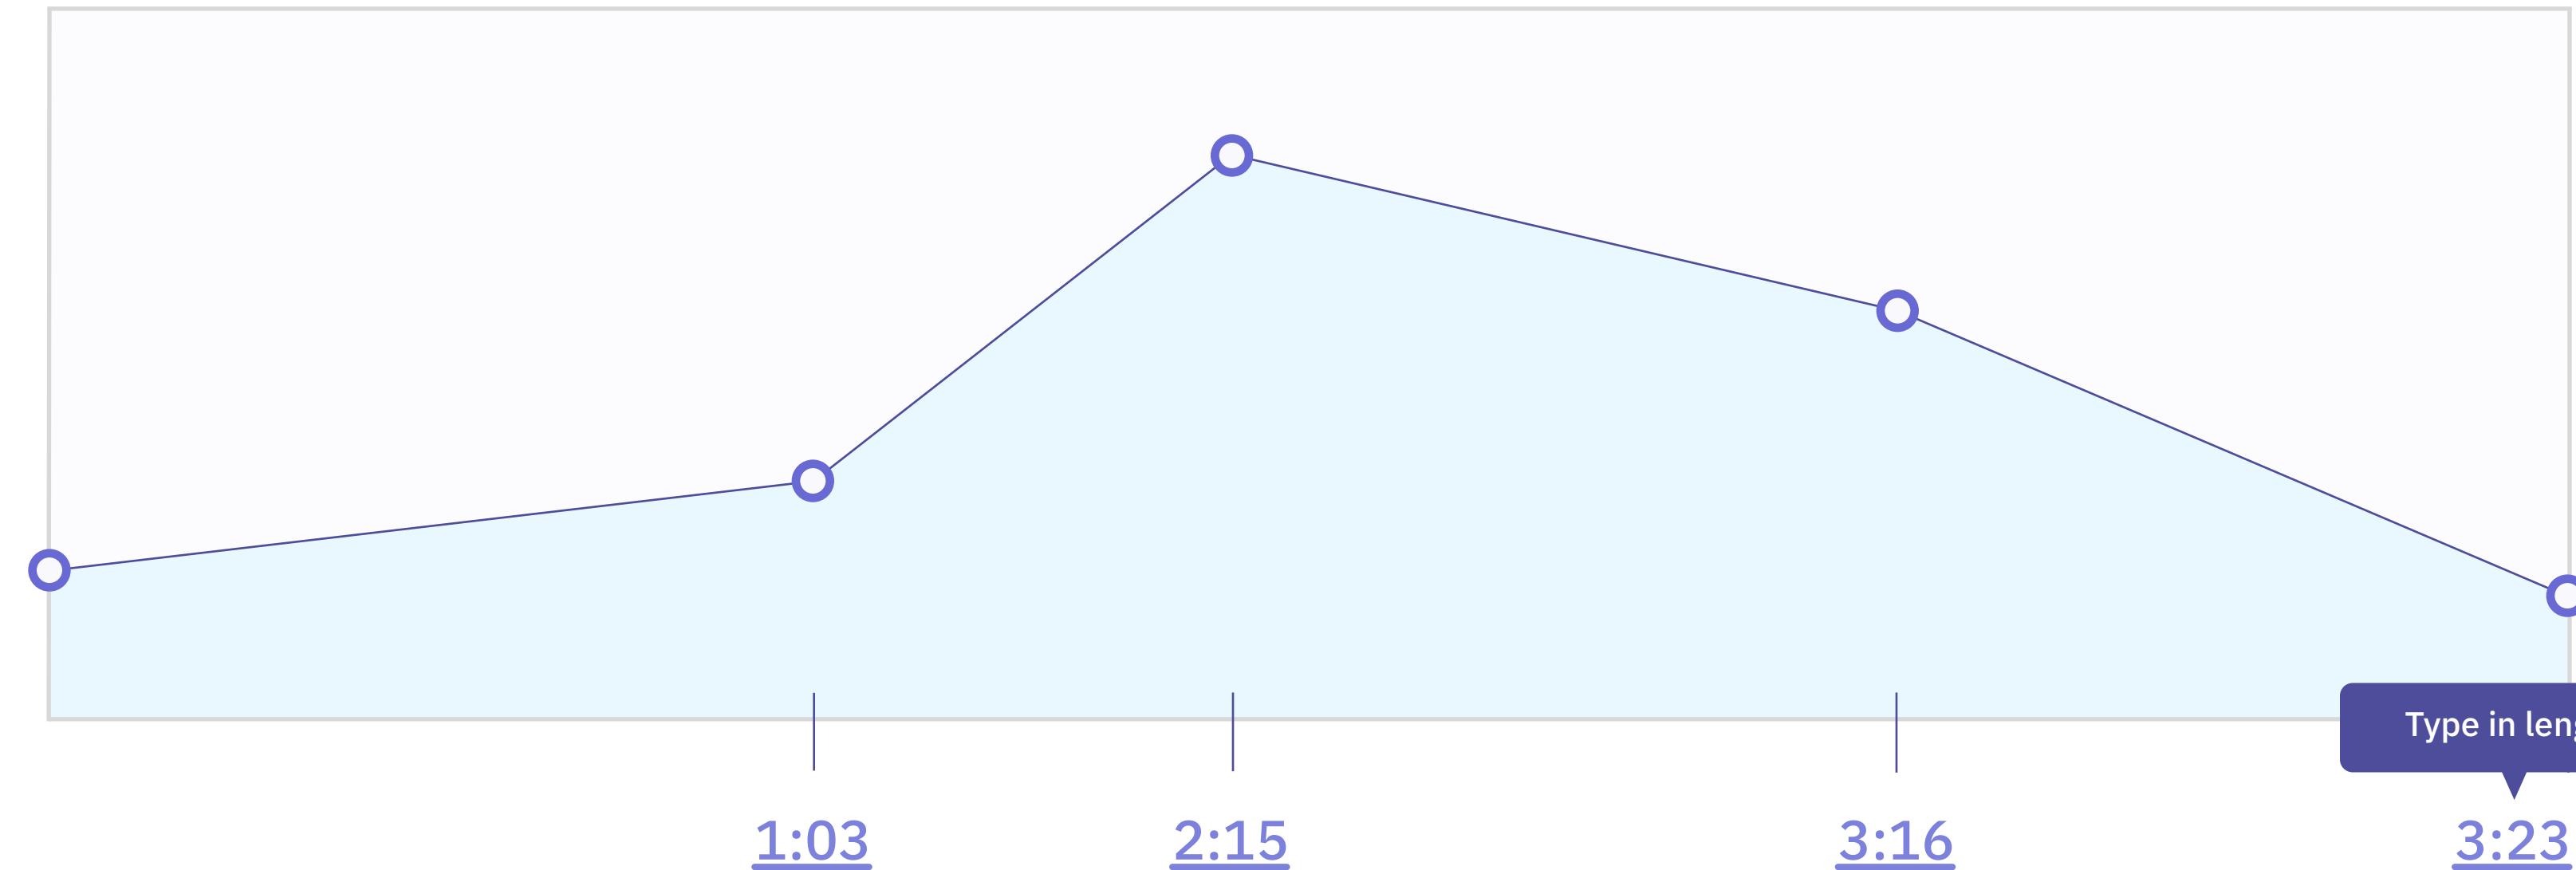

Type in a time between 0:10 seconds and 4:00 minutes to set the length of your track.

Got it!
